

Limeqin MFO

1. Description:

Auxiliary product for hair removal. Free of sodium sulfide.

2. Chemical nature:

Organic compounds with reducing action.

3. Characteristical features:

| | |
|------------------|---------|
| Appearance: | Liquid. |
| Solid content: | 26-28% |
| pH value (1:10): | 12±0.5 |
| Colour: | Brown. |

4. Properties:

Useful both for unhairing with hair recovery and for hair destruction. It acts on the pre-keratinous proteins, eliminating oily residues and background hair, leaving a relaxed and smooth fiber. With its use, the swelling produced by the alkali is reduced, as well as an improvement in the quality of lime and sulfur permeation in the skin; improving the penetration in terms of uniformity of the products that are added later.

5. Storage capacity:

The product may be stored with its container tightly closed in a well-ventilated place at a temperature ranging from +5°C to +35°C. Sealed containers have a service life of 6 months.

6. Application:

For unhairing with hair recovery, add it together with the lime, producing the keratin immunization, while the Limeqin MFO stays next to the hair roots avoiding their immunization. If the unhairing is conventional, the addition of Limeqin MFO will be together with the sulfur, sulfhydrate and lime. Its range of action is wide, going from pH 9.0 to 12.5, approximately.

7. Safety:

When handling this product the instructions set out in the safety data leaflet must be observed. The relevant safety and precautionary measures for hygiene in the workplace must also be followed when working with chemical products.

8. Observations:

The instructions given in this publication are based on the current stand of our knowledge and experience. This does not presuppose any judicial guarantee concerning certain properties nor their suitability for any application in particular. Given the many influences that may occur during the handling and use of our products, the persons handling or transforming them are not exempt from carrying out their own controls or tests. All those receiving our products will be responsible for observing all existing patent rights as well as all current laws and regulations.
