

Helpafix TAA

1. Introduction:

Auxiliary product for leather industrie.

2. Presentation:

Fixing agent for dyes with high requirements for washing solidity and migration to PVC.

3. Composition:

Balanced combination of alkalis and organic acids in water.

Appearance:	Liquid.
PH Value (1:10):	13,5 ±0,5
Colour:	Colourless to yellowish.

4. Properties:

Fixing agent for dyes where high washing solidity is required, as well as solidity to the migration to plastified PVC. It is complementary part of the dyeing process made with our range of Indafast colouring agents.

5. Minimum storage capacity:

The product can be stored en its well closed container in a well ventilated place at temperatures between +5° and +35°C. In its sealed container it lasts 12 months.

6. Application:

Compared to other types of normal alkali fixation, the fixation with Helpafix TAA features a simple handling of the product with no need to dilute. The addition quantity and the process duration is being reduced. A working temperature between 30 and 38°C is recommended and a working time from 40 to 60 minutes. We recommend a combination of Helpafix TAA with sodium carbonate for leather items to be coloured very uniformly, as in the case of nubuck for shoemaking with a direct dyeing process or for thick leathers.

7. Safety:

When handling this product the instructions set out in the safety data leaflet must be observed. The relevant safety and precautionary measures for hygiene in the workplace must also be followed when working with chemical products.

8. Observations:

The instructions given in this publication are based on the current stand of our knowledge and experience. This does not presuppose any judicial guarantee concerning certain properties nor their suitability for any application in particular. Given the many influences that may occur during the handling and use of our products, the persons handling or transforming them are not exempt from carrying out their own controls or tests. All those receiving our products will be responsible for observing all existing patent rights as well as all current laws and regulations.
