

Defatqin OE

1. Introduction:

Auxiliary for degreasing leather and fur.

2. Description:

Long chain alkyloxylated alcohol.

3. Composition:

Appearance:	Liquid.
Character:	Non-ionic.
Solid content:	35% approx.
pH value (1:10):	5.5±1
Colour:	Colourless.

4. Properties:

Biodegradable. It can be mixed with water in all proportions. Compatible with electrolytes due to its non-ionic charge. It is not sensitive to pH. Good emulsifier of natural fat of the leather. It does not harm the waterproofing process that is carried out once the Defatqin OE has been used.

5. Minimum storage capability:

The product may be stored with its container tightly closed in a well-ventilated place at a temperature ranging from +5°C to +35°C. Sealed containers have a service life of 6 months.

6. Application:

Defatqin OE is capable of being used in any degreasing process for hides and leather, even in leather remoistening processes where it is intended to remoisten them throughout the entire cut. Normally in beamhouse processes where we work on salted weight, the amounts to use are usually between 0.1% and 0.2% and in processes where we work on pelt weight, the amounts range between 0.1% and 0.5%. In cases of rewetting of wet blue, 0.3% to 0.7% and for crust the amounts range from 0.3% to 1.5%.

7. Safety:

When handling this product the instructions set out in the safety data leaflet must be observed. The relevant safety and precautionary measures for hygiene in the workplace must also be followed when working with chemical products.

8. Observations:

The instructions given in this publication are based on the current stand of our knowledge and experience. This does not presuppose any judicial guarantee concerning certain properties nor their suitability for any application in particular. Given the many influences that may occur during the handling and use of our products, the persons handling or transforming them are not exempt from carrying out their own controls or tests. All those receiving our products will be responsible for observing all existing patent rights as well as all current laws and regulations.
