

1. Introduction:

Solvent-based nitrocellulose.

2. Description:

Solvent-based nitrocellulose.

3. Composition:

Product characteristics:

| | |
|--------------|--|
| Nature: | Solvent-based nitrocellulose. |
| Appearance: | Somewhat viscous liquid, transparent and slightly yellowish. |
| Dry content: | 14 ± 1% |

Film characteristics:

| | |
|-------------|---------------------|
| Appearance: | Transparent. Shiny. |
| Hardness: | Medium-rigid. |

4. Properties:

The product provides a waterproof season with high gloss, very good fastness to dry and wet rubbing, and good optical appearance.

LC-0717 New lacquer forms a transparent film that can be tinted with colorants from our Dermaliq ranges. It has a fast drying.

5. Minimum storage capability:

The product may be stored with its container tightly closed in a well-ventilated place at a temperature ranging from +5°C to +35°C. Sealed containers have a service life of 6 months.

6. Application:

Solvent-based nitrocellulose particularly indicated for smooth finishing layers on leathers intended for footwear. Suitably formulated, it provides coats with excellent texture and leveling properties. It has good physical properties and good resistance to abrasion. It provides a silky and slippery touch. It is usually applied by gun. In this case it is advisable to dilute it in a 1:1 or 1:1.5 ratio in the usual solvents. If necessary, solvent-based touch modifiers can be added.

Shake the content before using it. Keep containers tightly closed.

7. Safety:

When handling this product the instructions set out in the safety data leaflet must be observed. The relevant safety and precautionary measures for hygiene in the workplace must also be followed when working with chemical products.

8. Observations:

The instructions given in this publication are based on the current stand of our knowledge and experience. This does not presuppose any judicial guarantee concerning certain properties nor their suitability for any application in particular. Given the many influences that may occur during the handling and use of our products, the persons handling or transforming them are not exempt from carrying out their own controls or tests. All those receiving our products will be responsible for observing all existing patent rights as well as all current laws and regulations.
