

Tanqin VMQ

1. Description:

Product for leather retanning.

2. Presentation:

Retanning agent for all kinds of leathers.

3. Composition:

Balanced mix of plant extracts and synthetic retanning agents.

Appearance:	Powder.
Nature:	Anionic.
Solids content:	85%-90%.
pH value (1:10):	8,0±1
Colour:	Dark brown.

4. Properties:

Tanqin VMQ provides the leather with features inherent to leather that was retanned with plant extracts. It gives fullness, filling features, compacity if desired, etcetera. As it is a balanced mix, it gets, when combined with other components, an homogeneous distribution and a penetration of the product without astringency, which leads us to get very even items for both retanning and dyeing procedure.

5. Minimum storage capacity:

The product can be stored in its well closed container, in a well ventilated place at temperatures between +5° and +35°C. In its sealed container it lasts 12 months.

6. Application:

The product can be used either as a only retanning agent, in which case we recommend adding between 6% and 15% or as a part in a retanning agents combination. In this case, quantities to be added are decreased to between 2% and 6%. It normally is used in the main retanning pack after neutralization, although it also can be added after stuffing and before fixing fatliquoring procedure.

7. Safety:

When handling this product the instructions set out in the safety data leaflet must be observed. The relevant safety and precautionary measures for hygiene in the workplace must also be followed when working with chemical products.

8. Observations:

The instructions given in this publication are based on the current stand of our knowledge and experience. This does not presuppose any judicial guarantee concerning certain properties nor their suitability for any application in particular. Given the many influences that may occur during the handling and use of our products, the persons handling or transforming them are not exempt from carrying out their own controls or tests. All those receiving our products will be responsible for observing all existing patent rights as well as all current laws and regulations.
