

# Qinoil CAT X

## 1. Introduction:

Weakly cationic oil.

## 2. Description:

Weakly cationic oil.

## 3. Composition:

Appearance:	Liquid.
Character:	Weakly cationic
Solid content:	33%
PH value (1:10):	4.5
Color:	White

## 4. Properties:

Qinoil CAT X is an ideal product to regulate skin absorption, which improves the leveling of the finish. It is compatible with cationic and non-ionic products; compatibility with anionic products is limited, it must be tested in each case.

It is resistant to electrolytes and very solid to light.

In the wet-end process, placed as a greasy top at the end of the whole process, it gives the skin a very pleasant silky touch.

## 5. Minimum storage capability:

The product may be stored with its container tightly closed in a well-ventilated place at a temperature ranging from +5°C to +35°C. Sealed containers have a service life of 6 months.

## 6. Application:

Qinoil CAT X is applied as a pre-fund to regulate skin absorption, either alone or mixed with other products, after a compatibility test. It can also be added to the base coat, after a compatibility test, to improve their equalization, improve the touch and reduce sticking in the base coat layers.

To achieve a "good hand" and a good touch on unfinished leathers, a solution of the product with isopropyl alcohol (so that it penetrates the skin regularly) and water can be applied by spray or roller:

*30-100 Qinoil CAT X  
50-100.- Isopropyl alcohol  
and water up to 1000 parts*

As a wet-end application product, its application would be as a fatty top at the end of the process and in amounts that would range between 0.3% and 1%.

## 7. Safety:

When handling this product the instructions set out in the safety data leaflet must be observed. The relevant safety and precautionary measures for hygiene in the workplace must also be followed when working with chemical products.

## 8. Observations:

The instructions given in this publication are based on the current stand of our knowledge and experience. This does not presuppose any judicial guarantee concerning certain properties nor their suitability for any application in particular. Given the many influences that may occur during the handling and use of our products, the persons handling or transforming them are not exempt from carrying out their own controls or tests. All those receiving our products will be responsible for observing all existing patent rights as well as all current laws and regulations.
